

INFINITAS | The Choral Works of Ily Matthew Maniano Vol. II

Living through a global pandemic has driven dramatic shifts in our world. It has put every aspect of our world into a halt, leaving some of us afloat. Despite its effects, music – a source of inspiration, encouragement, and hope – has always been there accompanying us through these dark times.

INFINITAS, (latin word meaning infinite), is a compilation of all the works and collaborations I've done at the start of the pandemic year up to the present. It simply goes to show that music transcends all these adversities. It is infinite, boundless, endless.

I see you as someone who shares my desire of giving hope and consolation to all; thus, I am writing this to invite you to be one of the PATRONS of **INFINITAS**. As you know, patrons, sponsors, and donors play a vital role in the development of the music and the arts. With your generous donation and funding, it will help cover production costs and ensure the success of the project. **INFINITAS** is set to be released by December 2021. This new album will consist of 9-12 works, some of which are on-going works. I would be willing to discuss this further with you in case you have more concerns or inquiries.

You may donate any amount you wish to give. We also have listed below the various gift options for supporting this fundraising effort. On behalf of the team and all the artists included in this special album, allow me to extend my deepest gratitude to you, in advance. We are, and forever will be grateful.
